

Task Manager Application

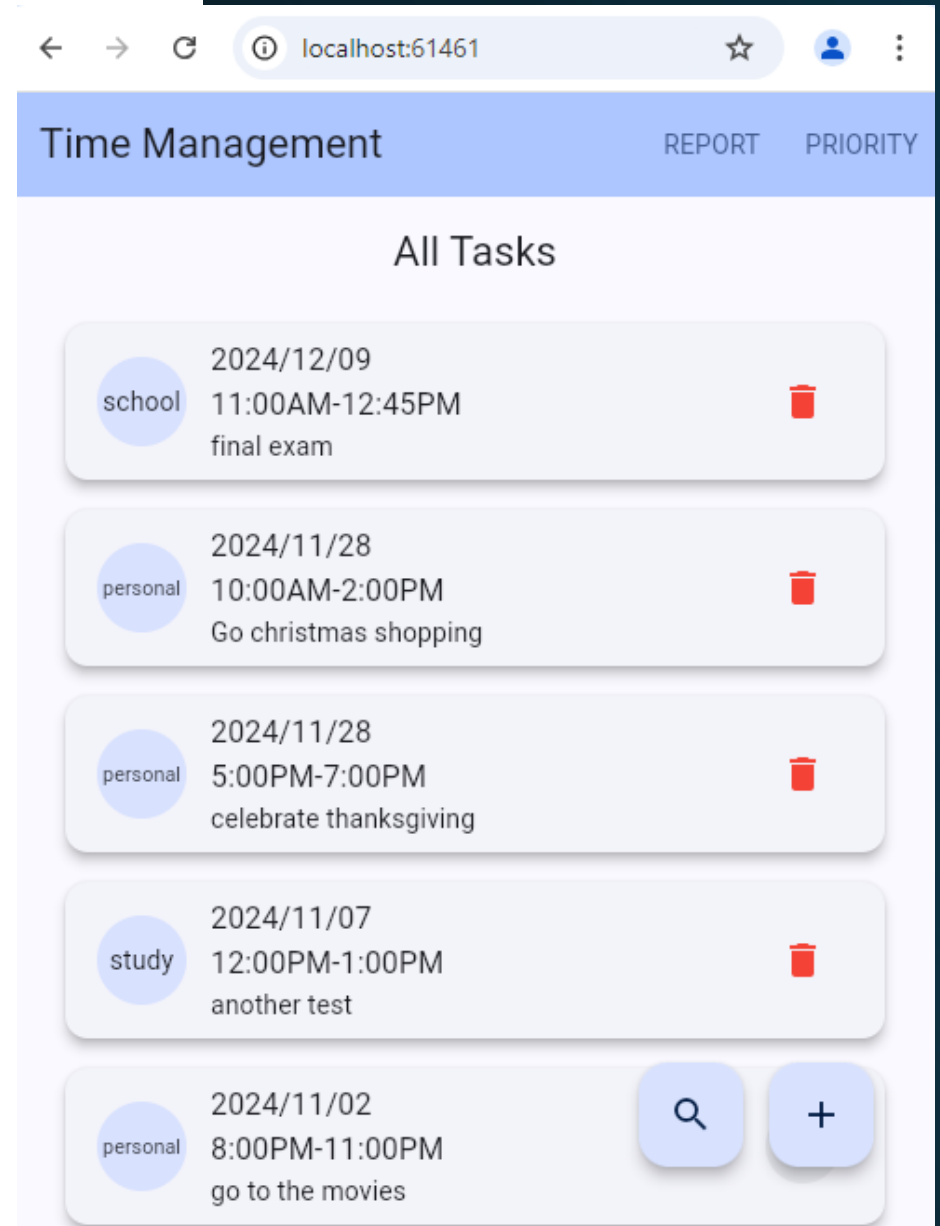

By: Julianna Truitt

#Content

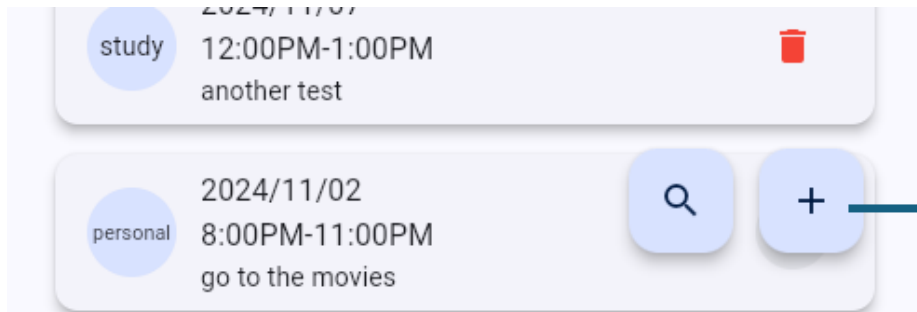

Feature 1: Display all task

- The home page will neatly display your tasks
 - Tasks will be arranged in order by the date
 - Tasks will include the date, time, tag, and description
 - You have the option to delete a task

Feature 2: Add Task

- Click the “+” button to add a new task
- Choose a date, start/end time, description, and tag
- Pressing submit will add your task to the database and redirect you back to the home screen

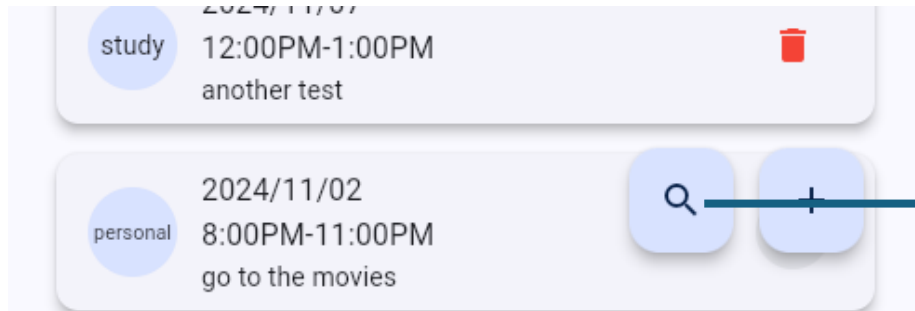

The 'Add Task' form contains the following elements:

- A back arrow in the top left corner.
- The title 'Add Task' in the top right corner.
- A link labeled 'Choose Date' in blue text.
- A 'Start Time' dropdown menu showing '12', '00', and 'PM'.
- An 'End Time' dropdown menu showing '1', '00', and 'PM'.
- A text input field labeled 'Task Description'.
- A 'Tag' dropdown menu showing 'school' and a '+' button to add more tags.
- A blue 'submit' button in the bottom right corner.

Feature 3: Search Task

- Search a task by the date, tag, or description
- It will filter all the tasks and provide you with only tasks that fit that criteria.
- Use drop down menu to choose date, tag, or description and type in value to find accordingly

Feature 4: Report Dates

- Report a range of dates with report button
- This will show you only dates within the specific range that you select

Feature 5: Priority

- Selecting priority will show you your tasks reordered from time most spent on a task to least spent
- This will give users an idea of what they spend most their time on
